

# Broadband Wireless Internet Access

## Pathway's Wireless Internet Service

Pathway Communications is the home of Toronto's most complete Internet solutions. Wireless Internet Access is an always-on, always-connected Internet technology. Experience lightning fast data transfer rates at **prices that are up to 75% lower** than fibre-optic access technologies. This means increased performance, efficiency, reliability and productivity for your business, at an unbeatable price. Pathway's Wireless Internet access is available with **full duplex symmetrical speeds of up to 10 Mbps!**

### Ideal for businesses which:

- Require economical high-speed access
- Need their entire office on the Internet, without buying, setting up, and managing Internet equipment
- Regularly visit graphic intensive or multimedia driven websites
- Transfer large files or send and receive a high volume of emails
- Are interested in virtual private networking or telecommuting
- Looking for a backup solution to provide redundancy
- Unable to receive other types of Broadband Access

Unlike most other providers, Pathway provides a rich package of value-added and time saving features with your Wireless Internet connection.
